# Why Fluidmaster concealed cisterns?

**Ready to elevate** your bathroom with a blend of style, functionality, and efficiency? **Explore** Fluidmaster's concealed cisterns and flush plates as the smart choice for a modern bathroom upgrade.

# Enhancing your bathroom experience

## Experience and Innovation: The power of our heritage

At Fluidmaster, we proudly combine global reach with European craftsmanship. We are not just a brand; **we are the culmination of centuries of innovation, craftsmanship, and a relentless pursuit of excellence.** Our brands have thrived on the global stage, drawing inspiration from diverse cultures and markets. This fusion of perspectives allows us to create concealed cisterns that are both technologically advanced and aesthetically captivating.

Our commitment to research and development is unwavering. We harness the collective knowledge and expertise of our brands to bring you the very best concealed cisterns on the market. Each product reflects our dedication to innovation, reliability, and quality, setting new standards for what you can expect from your bathroom.

Opt for Fluidmaster's concealed cisterns, where timeless design meets cutting-edge technology. Benefit from a fusion of global and European craftsmanship, all backed by our commitment to excellence in performance. Because your bathroom should settle for nothing less.

# Why Fluidmaster concealed cisterns?

## **Keeping up with trends**

For decades, Fluidmaster has been at the forefront of innovation, setting the trends in bathroom design and functionality. By choosing us, you're not just keeping up with the times; you're staying one step ahead.

## **Space optimization**

In today's world, space is a luxury. Fluidmaster concealed cisterns save precious room in your bathroom, making it feel more open and inviting. Small spaces can now have a big impact.

## **Saving resources**

Fluidmaster isn't just about aesthetics; it's about efficiency too. Our cisterns come with money-saving flush settings, helping you reduce water consumption and lower your utility bills, all while contributing to a greener planet.

## **Aesthetic brilliance**

Fluidmaster concealed cisterns and flush plates don't just blend into your bathroom; they elevate it. Our products marry style and functionality seamlessly, turning your bathroom into a work of art.

## **Hygiene at its best**

Say goodbye to dusty, bacteria-prone cisterns. With Fluidmaster, hygiene takes center stage. Our concealed cisterns are designed to eliminate dust and bacteria, ensuring a clean, healthy environment for you and your family.

## **Peaceful serenity**

Imagine a bathroom where the flush doesn't disrupt your peace. Fluidmaster's concealed cisterns are expertly designed to reduce flush noise, allowing you to enjoy tranquility in every moment.

# Join the revolution in style and efficiency

## **Effortless maintenance**

Cleaning and maintaining your bathroom shouldn't be a chore. Fluidmaster cisterns make it easy. Say goodbye to hard-to-reach spots and hello to hassle-free upkeep.

## **Endless design possibilities**

With a wide range of décor-matching flush plates, Fluidmaster offers endless opportunities to tailor your bathroom to your unique taste. Your dream bathroom is within reach.

## **Increasing property value**

Did you know that choosing Fluidmaster could potentially increase the resale value of your property? Make a wise investment in your home's future with us.

## **Built to last**

Our cisterns are not just functional; they're durable. With the ability to hold up to 400 kg of weight, you can trust in their longevity and reliability.

## **A safe investment**

Fluidmaster concealed cisterns and plates aren't just a short-term upgrade; they're a long-term investment. We offer a 10-year guarantee and a 25-year availability of original spare parts, ensuring peace of mind for years to come.

# Our passion for excellence

## 150 years of innovations

A number of innovations, which are the foundation for quality and reliability of products and services, are the result of experience and knowledge collected through over 150-years of tradition in developing flushing technology solutions.

## Water is our passion

Water – the source of life and our inspiration. Fluidmaster strives to develop solutions that are kind to people while keeping in mind the quality of life and responsibility towards the natural environment.

## Worldwide presence

Through our recognized strong brands we provide a complete range of high-quality products all around the globe. Chosen by plumbers, architects, ceramic manufacturers and consumers around the world, we are known for our performance and technology, quality, durability, ease of installation, and innovation.

## Customer satisfaction

Customer satisfaction is our never ending focus in everything we do. And we do it with passion.

## Engineered in the Netherlands

Meticulously crafted with precision and fueled by Dutch ingenuity, these concealed cisterns seamlessly marry efficiency, space optimization, and refined aesthetics. Elevate your bathroom ambiance to new heights, as our Dutch-engineered concealed cisterns redefine the standards of modern sophistication.

## German quality standards

Crafted with the utmost attention to detail, our concealed cisterns not only elevate aesthetics but also embody the reliability and durability synonymous with German quality standards.

# Flush plates

## **Harmony. The ideal alignment.**

This is the universal aspiration we seek to attain across various dimensions, whether within ourselves, in our surroundings, or even in the bathroom.

Contemporary flush plates, available in various colors, shapes, and materials, offer boundless opportunities for creating unique combinations within bathroom settings, seamlessly blending functionality and design in your spaces.

They effortlessly integrate with modern bathroom aesthetics and infuse a sense of freshness and youthful vibrancy into traditionally decorated bathrooms.

# Harmony of colors, shapes and comfort

## **High-quality plastic**

that withstands the test of time and environmental factors. These plates will maintain their color even after years of use, continuing to be an attractive feature in your bathroom.

## **Stainless steel**

available in different configurations, is also well-suited for public restroom facilities and is frequently paired with contact-less, infrared technology for enhanced hygiene during flushing.

## **Aluminum,**

a lightweight metal with outstanding mechanical and corrosion-resistant properties, available in both light and dark variants.

AVAILABLE IN...

## **Tempered glass and wood**

in various color options, enhancing your bathroom with a touch of elegance and sophisticated design.

## **Zinc alloys,**

known for their strength and durability, are offered in white, matte chrome, and glossy chrome finishes.

Explore the selection of flush plates and select the one that's right for you.

Dry wall installation element for wall hung WC pan

**SKU CODE:** 2040F-0001-30  
**EAN CODE:** 8681282661022

# WC Frame NexaFlo

## Installation method

- Installation in prefabricated walls or studded walls
- Pre-wall installation in dry walls
- Universal installation into solid walls

## Properties

- Self-supporting, green powder coated frame, square profile 40x40 mm
- 400 kg load tested frame
- Enables installation of wall hung WC pans with dimension of 180 mm or 230 mm
- Pre-assembled wall brackets
- Adjustable supporting feet (0-200 mm)
- Pre-assembled concealed cistern, with front electronic or mechanical actuation
- Installed factory pre-set dual flush valve, large flush 4 L, small flush 2 L
- Concealed cistern is fully insulated against condensation
- Water supply connection possibility on the four positions
- Maintenance service work is possible without using any tools

## Special feature

- Quiet mechanical fill valve Fluidmaster 747 Series (Noise class 1 ISO 3822)
- Fill valve flow pressure 0,2-10 bar
- Depth adjustable drain elbow (+/-20 mm)
- Corner installation is possible with additional wall bracket kit (has to be ordered separately)

## Product contains

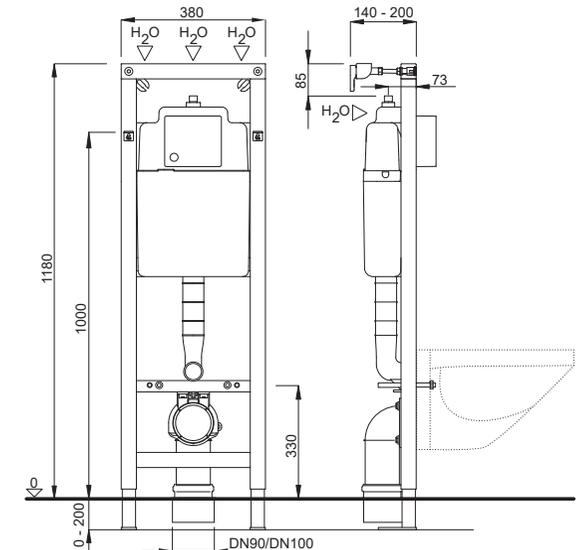

- Concealed cistern is equipped with pre-installed stop valve – top middle
- Water supply connection G 1/2 with flexible hose
- PE-HD drain elbow Ø 90/90 mm with seal
- Eccentric PE-HD adapter Ø 90/110 mm with seal
- Installation manual
- Complete installation and fixing material

## Dimension of the product

- Width 380 mm, height 1180 mm, depth 140 mm

## Additional information

# SimplaFlo – The universal solution

## UNIQUE FUNCTIONS

1

**Standard model**  
compatible with all  
major brands  
in Europe

2

**Very silent**  
flushing

3

**One flush possibility**  
(mechanic)

4

**Odor removal**  
option and shower  
toilet feature

5

**Variis**  
product  
executions  
for different  
construction  
requirements

6

**Easy to install  
and maintain**  
(minimal tools  
needed)

SimplaFlo is the versatile, user-friendly solution for all bathroom spaces.

Dry wall installation element for wall hung WC pan

**SKU CODE:** 2010F-0021-30  
**EAN CODE:** 3838912065865

# WC Frame SimplaFlo DWC

## Installation method

- Installation in prefabricated walls
- Pre-wall installation in dry walls
- Universal installation into solid walls

## Properties

- Self-supporting, green powder coated frame, square profile 40x40 mm
- 400 kg load tested frame
- Enables installation of wall hung WC pans with dimension of 180 mm or 230 mm
- Pre-assembled wall brackets
- Adjustable supporting feet (0-200 mm)
- Pre-assembled concealed cistern, with front mechanical actuation
- Installed factory pre-set dual flush valve, large flush 4 L, small flush 2 L
- Concealed cistern is fully insulated against condensation
- Water supply connection possibility on the four positions
- Maintenance service work is possible without using any tools

## Special feature

- Prepared for connection of the shower WC pan
- Flush pipe with connection  $\text{Ø} 50 \text{ mm}$  for air extraction system
- Supporting feet's with rotating plates, equipped with brake for easier installation
- Quiet mechanical fill valve
- Fill valve flow pressure 0,1-10 bar
- Depth adjustable drain elbow (+/-20 mm)

## Product contains

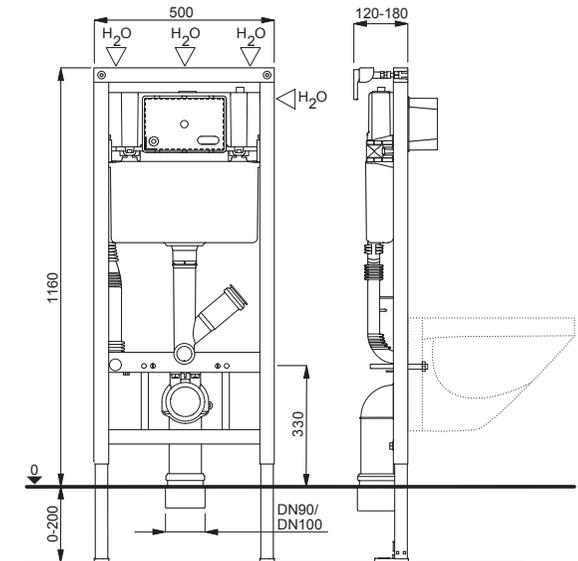

- Concealed cistern equipped with pre-installed stop valve – top right
- Water supply connection G 1/2 with flexible hose
- Pipe for water supply connection of the shower WC pan
- Electrical box loose
- PE-HD drain elbow  $\text{Ø} 90/90 \text{ mm}$  with seal
- Eccentric PE-HD adapter  $\text{Ø} 90/110 \text{ mm}$  with seal
- Instruction manual
- Complete installation and fixing material

Our concealed cisterns and flush plates are backed by a dependable 10-year guarantee, ensuring reliable operation.

Original spare parts for our products are available for 25 years.

High capacity: correctly installed toilet bowl can easily carry a 400 kg load.

High endurance: endurance test of the flushing cistern is 200,000 cycles, alternating operation of large and small water flush (according to the requirements of the standards NF 076 and EN 14055).

Concealed cisterns and flush plates are equipped with dual flushing technique, thus contributing to a more responsible and eco-friendly use of potable water.

Well-insulated cisterns with exceptionally silent filling valves ensure remarkably noiseless operation.

We design our products for bathrooms and sanitary facilities in line with the latest trends. This includes mounting solutions that make maintenance easier and the use of eco-friendly materials.

Sanitary electronics provide the best answer to hygiene issues. Our no-contact flushing system features a highly sensitive sensor that detects hand or body movements, offering you an effective remedy.

Experience and knowledge collected through over 150-years of tradition in developing flushing technology solutions.

Note:

The larger photos in the catalog show the actual size of the flush plates. Minor deviations may occur. You can use the flush plate image as a reference when installing it on ceramics and finding the best solution for your requirements.
